

Dear Reviewer.

Before you participate in the review, please agree to the following statement:

As reviewer of the **First Order Draft of the 2nd Austrian Assessment Report on Climate Change (AAR2)** I agree to the **APCC** (*Austrian Panel on Climate Change*) **Conflict of Interest Policy**.

This includes that **I carry out my work for the APCC in an unbiased manner and without conflicts of interest**. Otherwise I declare any interest that require an explanation because it could significantly affect my objectivity while working for the APCC or that could give me or my institution unfair advantage and direct material gain based on APCC results. Dealing with interests beyond a purely scientific consideration in a transparent manner makes it possible to ensure my **impartiality**.

A **conflict of interest** refers to any present professional, personal, financial or other interest: **a)** which may significantly affect the objectivity of individuals in the performance of their duties for the Austrian Panel on Climate Change (APCC); and/or **b)** that may give an unfair advantage to a person or organization, so that he/she/it gains directly and materially from the results. Furthermore, a conflict of interest refers to any present activity that indirectly or directly results in an improper reputational gain. These potential conflicts are subject to disclosure.

Further, I will provide the corresponding contributions in spoken and written form correctly and appropriately to the best of my knowledge and belief and take responsibility for their content. In particular, upon request from the authors or review editors of the report, I declare my willingness to provide appropriate evidence for factual representations that I have submitted. I take note that the evaluation of my contributions and their incorporation into the report is the responsibility of the AAR2 author team. Apart from any necessary authorisation of verbatim quotations attributed to me, I have no direct influence on the wording of the report and I assure that I will not seek such influence.

I declare that I will avoid situations that could call into question the integrity of the AAR2 or its process.

Finally, **I confirm that I will not pass on the AAR2 or extracts of the report to third parties** before the completion and publication of the final report, also for reasons of copyright. Approvals for the respective illustrations in the FOD will be obtained by the time the report is finalised.

Thank you!

The APCC Conflict of Interest Policy can be downloaded here on the AAR2 website and will be sent to all reviewers via email.
